

NV Moonbounce Safety Instructions

Froggy Fly Fling

These safety rules MUST be followed to avoid serious injury.

***Supervision by a responsible adult is required at all times.**

Place catapult at an appropriate distance from canvas.

Place insect on catapult.

Using the rubber mallet, strike the rear of catapult, launching the insect toward the canvas.

Do not place hands on catapult when being struck.

Do not use mallet for any purpose other than striking the catapult.

Spectators must be at least 5 feet from catapult area.
